

Product Specification Sheet

2 Space Rac Pac, 7” Depth

Functional Specifications

Motion Laboratories’ 2RU Rac Pac is purpose-built to provide reliable internal rack power for both portable and stationary equipment racks. Featuring a durable black anodized finish, they deliver a compact, professional power solution suited for demanding production, broadcast, and touring environments. They are part of the 1105-2 Product Series.

Features

- Multiple options for power input and thru connectors, including Hubbell Twist-Locks, Pin & Sleeve and Straight Blade devices.
- Power indicators on all phases for quick visual status confirmation
- Three available slots for branch-rated circuit breakers.
- Manufactured in the USA
